SAMANTHA RAMOS

FULL STACK SOFTWARE DEVELOPER

(210) 994-1785 ◊ samanatha.ramos01@gmail.com ◊ [Linkedin](#) ◊ [GitHub](#) ◊ [Portfolio](#)

SUMMARY

Dedicated professional software developer committed to exceeding expectations and realizing project visions through unwavering dedication. Skillfully harmonizing technical expertise with a strong commitment to professionalism, ensuring the successful realization of project goals.

TECHNICAL SKILLS

Languages/Technologies: Java, Spring MVC, Spring Boot, Hibernate, HTML, CSS, jQuery, JavaScript, Bootstrap, Git, Thymeleaf, Object Oriented Programming, MySQL, Apache Tomcat, Maven, J2EE, REST APIs.
Exposure to: Spring Framework and JUnit Testing

EDUCATION

Codeup
Certification of Completion   May 2023 - October 2023
This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require). Students hone skills in modern web technologies, computer science, software engineering, and application architecture while gaining project experience with pair programming, debugging, troubleshooting, agile project management, user stories, feature lists, UI/UX, wireframing, and relational database design.

DEVELOPMENT PROJECT

Capstone Project : [Repository](#)
Participated in a cross-functional team of five to design and develop a sophisticated fostering application. Leveraging Java, Spring Boot, HTML, CSS, JavaScript, and SQL we seamlessly integrated an OAuth API to ensure robust security and authentication.The application allows users to find and foster animals from local shelters using precise geographic search based on ZIP code.Furthermore, the application provides users with an array of valuable features. Users can efficiently schedule fostering appointments, share their valuable feedback through review submissions, curate their list of favorite animals, and achieve recognition by earning well-deserved badges for their contributions to fostering. This multifaceted functionality enhances user engagement and promotes a rewarding and interactive experience within the application. This project highlights skills in full-stack development and delivering a user-centric experience.

Ad-Lister Project: [Repository](#)
This application was developed collaboratively by a group of four using a diverse technology stack that includes Java, SQL, HTML, and CSS. It serves as a unique spin-off from the conventional Adlisters platform, boasting a distinctive 'dark web' theme. Within this innovative environment, users are empowered to create profiles and post their advertisements. They can seamlessly explore listings from other users and employ filtering options to efficiently navigate the entire spectrum of available listings. This project underscores a solid understanding of Java, showcasing not only technical familiarity but also a solid grasp of user-interface design principles.

CERTIFICATIONS

- OSHA certification - H-E-B   October 2025

EXPERIENCE

HEB - San Antonio, Texas
Warehouse Operator   Oct 2021 - Present

- Meticulously oversee the safe handling of warehouse products collectively valued at over 10 million dollars at the biggest grocery warehouse in Texas, mitigating the risk of damage or mishandling.

- Methodically organize and store products in designated locations, working collaboratively with a team of 7 to optimize order fulfillment process for retail outlets, resulting in a 4% increase in efficiency.

- Providing hands-on training and guidance to 13 new warehouse team members thus far, facilitating their rapid integration into daily operations and ensuring a smooth transition.

- Consistently conduct rigorous inventory audits more than 2 times per week to validate the accuracy of warehouse inventory, including detailed physical inspections of products and cross-referencing with recorded data, thereby ensuring precise control of over 5 thousand pallets worth of valuable assets.

Bill Miller - San Antonio, Texas
General Manager   April 2018 - Oct 2021

- Facilitated the training of 4 managers during a phase of company expansion, emphasizing diligent attention to detail and strict adherence to company policies. Additionally, managed and oversaw a crew of 40 or more, demonstrating effective leadership and ensuring seamless operations within the team.

- Successfully handled over $320,000+ monthly in revenue for the establishment, consistently meeting and exceeding revenue targets by 3 to 5%, out performing last year's figures.

- Devised innovative strategies for supply procurement, successfully reducing supply margins by 3.5%, thereby contributing to heightened profitability for the company at the location.

- Cultivated and nurtured professional customer relationships, ensuring their return to the establishment, and effectively addressed any grievances to resolve potential issues in their dining experience, resulting in a decrease of callbacks to .25% per week.

- Maintained over $100,000 worth of equipment, ensuring its proper functionality and contributing to efficient daily operations.
